

Applications:

Ongoing

Eligibility:

Public or Private Telecommunications Providers

Funding Uses:

Rural Utility Service (RUS) funds may be used to finance the construction, improvement, leasing and acquisition of facilities and equipment when it is necessarily needed for broadband build-out. RUS does not approve using funding for any purchase of stock, facilities, or equipment of an affiliate. RUS also does not approve using funding for terminal equipment the applicant does not own, vehicles not used primarily in construction or operating expenses.
